

Close

Closes a zip file.

Syntax

```
SRP_Zip("Close", ZipHandle)
```

Parameters

Name	Description
ZipHandle	Handle to an opened zip file.

Remarks

Call this service to close a zip file. Make sure you call this anytime you successfully call [Open](#) or [Create](#). Otherwise, the file will remained lock as long as OpenInsight is running.

Example

```
// Always close a file when done
hZip = SRP_Zip("Open", "C:\MyFile.zip")
If hZip EQ 0 then
    Call Msg(@Window, SRP_Zip("GetLastError"))
end else
    SRP_Zip("Close", hZip)
end
```
