

# Version

The control's version info.

## Usage

```
Array = Get_Property(OLECtrlEntID, "OLE.Version")
```

## Values

*Array* has the following structure:

Pos	Name	Type	Description
<1>	Version Number	Decimal	The control's version number
<2>	Last Build	Text	The data and time of the control's last build

## Remarks

This read only property exists in all SRP OLE controls to provide an easy way to determine which version of the control is in use.

## Example

```
// Get the control's version  
Version = Get_Property(@Window:".OLE_CONTROL", "OLE.Version")
```
