Properties

OLE control properties are the primary means of interacting with OLE controls. Properties, much like OI control properties, describe the persistent attributes of the control, that is, attributes having some meaningful value for the entire life of the control. Like OI control properties, OLE control properties are manipulated using the Get_Property and Set_Property routines. The following properties apply to the SRP Picture Control:

Property	Description	Version Introduced
Alignment	The image alignment within the control's bounds.	
Animated	Whether or not the image is automatically animated.	
AnimationDelay	The number of milliseconds between frame changes.	
AutoLoadDropFile	Determines whether or not image files from a drag and drop operation automatically load.	
BackgroundColor	The control's background color.	
BorderAlignment	The control's border alignment.	
Border	The control's border style.	3.1.0
BorderColors	Customizes the colors of an SRP ActiveX Control's border.	3.1.0
BorderType	*Deprecated. Use Border instead*	*Deprecated*
Caption	The text displayed when there is no image or control part.	
CaptionAlignment	The caption alignment within the control's bounds.	
CaptionColor	The color used to render the Caption.	
CaptionOffset	The caption offset within the control's bounds.	
ControlPart	Sets the control's image to a dynamically sized control part.	
Font	The font used to render the Caption.	
Frame	The index of the currently displayed image frame.	
FrameCount	The number of frames into which the control's image is divided.	
Image	The path to the image displayed in the control.	
ImageOffset	The image offset within the control's bounds.	
ImageSize	The size of the image in pixels.	
Layout	The sizing behavior of the control's image.	
OmniProperty	A single property for setting multiple control properties at once.	
ProgID	The control's ProgId/Class Name.	
ResizeUsingGDIPlus	Determines if GDIPlus is used to resize image.	
ScrollPos	The scrollbar positions.	
TransparentColor	The color not to be drawn in the control's image.	
Version	The control's version info.	
Zoom	The zoom level of the picture.
