

Properties

OLE control properties are the primary means of interacting with OLE controls. Properties, much like OI control properties, describe the persistent attributes of the control, that is, attributes having some meaningful value for the entire life of the control. Like OI control properties, OLE control properties are manipulated using the `Get_Property` and `Set_Property` routines. The following properties apply to the SRP ShortcutBar Control:

Property	Description	Version Introduced
AcceptFocus	Determines if the control accepts focus when clicked or tabbed into.	
Animation	Indicates whether or not groups animate when the user selects between them.	
AutoReposition	Enables or disables auto updating.	
Behavior	The group presentation behavior.	
Border	The control's border style.	
BorderColors	Customizes the colors of an SRP ActiveX Control's border.	3.1.0
GroupCaption	Text to appear in a group's header.	
GroupCount	The number of groups in the shortcut bar control.	
GroupEnabled	Enables or disables a group.	
GroupExpandable	Allows the user to expand and contract a group.	
GroupExpanded	Expands or contracts a group.	
GroupFont	The font used to render group captions.	
GroupImage	Image to appear in a group's header.	
GroupItemCount	The number of items in a group.	
GroupSelection	A group's selected items.	
GroupSpecial	Indicates whether or not a group appears visually different for emphasis.	
GroupToolTip	Text to appear when the mouse hovers over a group's header.	
HotTrackStyle	The visual feedback when the mouse hovers over an item	
ImageList	All the images used by the shortcut bar to render the shortcut items.	
ItemBold	Indicates whether or not an item's caption is bold for emphasis.	
ItemCaption	An item's textual label.	
ItemEnabled	Enables or disables an item.	
ItemFont	The font used to render item text.	
ItemImage	Image to appear in an item.	
ItemToolTip	Text to appear when the mouse hovers over an item.	
ItemType	An item's type.	
Layout	The layout of items within groups.	
Margins	The space around and between groups.	
ProgID	The control's ProgId/Class Name.	
SelectBehavior	The selection behavior.	
Selection	The current selection.	
Theme	The control's visual style.	
Version	The control's version info.
