

Font

The font used to render the Caption.

Usage

```
Set_Property(OLECtrlEntID, "OLE.Font", FontArray)
```

Values

The *FontArray* structure uses the same formatting as the OpenInsight FONT property. Visit the [Font](#) common OLE property page for further documentation.

Default: Tahoma, 8 pt.

Remarks

The Font property is the font used to draw the [Caption](#). Modify it to get your desired look and feel.

Example

```
// Make the caption italics
Set_Property(@Window:".OLE_PICTURE", "OLE.Font", @SVM:@SVM:@SVM:1)
```
