

ImageSize

The size of the image in pixels.

Usage

```
Array = Get_Property(OLECtrlEntID, "OLE.ImageSize")
```

Values

Array has the following structure:

Pos	Name	Type	Description
<1>	Frame Width	Integer	The width of a single image frame
<2>	Frame Height	Integer	The height of a single image frame

Remarks

The ImageSize property returns the size, in pixels, of a single image *frame*. Thus, changing the FrameCount value affects the width returned by this property. This property is read only and cannot be set.
