ShowAt

Displays the popup at an absolute screen position.

Syntax

```
rv = Send_Message(Ctrl, "OLE.ShowAt", X, Y)
```

Parameters

Parameter	Description
X	The x position on the screen
Y	The y position on the screen

Remarks

The ShowAt method displays the popup at an absolute X and Y position on the screen. This is useful when you need to display the popup next to a specific control or window. Simply specify the on-screen location where you'd like the popup to appear. To hide the popup, use the Close method or the Visible property.

Example

```
* Show the popup at 100, 100
Send_Message(@Window:".OLE_POPUP", "OLE.ShowAt", 100, 100)
```
