

ColumnFooterText

The column footer's text.

Usage

```
Set_Property(OLECtrlEntID, "OLE.ColumnFooterText[col]", Text)
```

Values

Text can contain anything.

Default: ""

Indices

Index	Description
col	The index to a column in the report table

Remarks

The ColumnFooterText sets the text to appear in the column's footer. This might be useful for displaying totals or averages, though you'll have to calculate them yourself.

Example

```
// Show the total for column 5
Set_Property(@Window:".OLE_REPORTTABLE", "OLE.ColumnFooterText[5]", GrandTotal)
```
