

# ListExFormatted

The entire data contents of the record table including group rows, formatted using the column format settings.

## Usage

```
Array = Get_Property(OLECtrlEntID, "OLE.ListExFormatted")
```

## Values

Array has the following structure:

Pos	Name	Type	Description
<1>	Row	<a href="#">Text</a>	The contents of an entire row
<1, 1>	Column	<a href="#">Text</a>	The contents of a cell in the row

## Remarks

The ListExFormatted property is a read only version of the [List](#) property that includes group rows and formats the data using the column formats. Group rows will appear in the list as a single value set to the group row's caption.

## Example

```
// Read the table's contents, including group rows,  
// as formatted and viewd by the user  
Data = Get_Property(@Window:"OLE_RECORDTABLE", "OLE.ListExFormatted")
```
