

# HorizontalGridStyle

The style of horizontal grid lines.

## Usage

```
Set_Property(OLECtrlEntID, "OLE.HorizontalGridStyle", OptionValue)
```

## Values

*OptionValue* can be set to one of the following valid options:

Value	Description
None	No horizontal grid lines
DotSmall	Horizontal grid lines composed of small dots
DotLarge	Horizontal grid lines composed of large dots
Dash	Horizontal grid lines composed of dashes
Solid	Solid horizontal grid lines

**Default:** Solid

## Remarks

The HorizontalGridStyle property establishes the how horizontal grid lines are rendered. To remove horizontal grid lines, set this to "None". The default is "Solid" grid lines. This property only affects horizontal grid lines. To change vertical grid lines, use [VerticalGridStyle](#).

## Example

```
// Remove horizontal grid lines
Set_Property(@Window:".OLE_REPORTTABLE", "OLE.HorizontalGridStyle", "None")

// Use dotted horizontal grid lines
Set_Property(@Window:".OLE_REPORTTABLE", "OLE.HorizontalGridStyle", "DotSmall")
```
