

Version History

Version history for version 4.0 and above can be found on [ActiveX Version History](#).

2.0.3

- All controls have been rebuilt to ensure they register and work on Windows XP
- All controls have had their mouse-over logic altered to improve performance

2.0.2

- Added [Border](#) and [BorderColors](#) properties to all controls
- Added [OnGotFocus](#), [OnLostFocus](#), [OnMouseEnter](#), and [OnMouseExit](#) events to all controls

2.0.1

- Fixed bug where focus would go into every control on every click

2.0.0

- Updated to no longer require SRPShared.dll
