

# ProgID

The control's ProgID/Class Name.

## Usage

```
Text = Get_Property(OLECtrlEntID, "OLE.ProgID")
```

## Values

*Text* can contain anything.

## Remarks

This read only property exists in all SRP OLE controls to provide easy identification of a control's ProgID. This control's ProgID is:

SRP.Schedule.1

## Example

```
// Get the control's ProgID  
ProgID = Get_Property(@Window:".OLE_CONTROL", "OLE.ProgID")
```
