

RightTimeBar

Visibility status of the right time bar.

Usage

```
Set_Property(OLECtrlEntID, "OLE.RightTimeBar", Boolean)
```

Values

[True | False]

Default: True

Remarks

The RightTimeBar shows or hides the right time bar in the schedule. The right time bar servers the same purpose as the [LeftTimeBar](#). Set it to 0 to hide the timebar or 1 to show it. It is off by default.

A right time bar is useful if your users plan to extend the schedule control across multiple monitors.

Example

```
// Show the right time bar  
Set_Property(@Window:".OLE_SCHEDULE", "OLE.RightTimeBar", Yes$)
```
