

# ScheduleFonts

All fonts used in the schedule portion of the control.

## Usage

```
Set_Property(OLECtrlEntID, "OLE.ScheduleFonts", Array)
```

## Values

Array has the following structure:

Pos	Name	Type	Description	Default
<1>	Time Bar Hours	Font	The font used to display hours in the time bar	16 pt. Tahoma
<2>	Time Bar Minutes	Font	The font used to display minutes in the time bar	8 pt. Tahoma
<3>	Entity Header Name	Font	The font used to display the entity name in it's column header	8 pt. Tahoma, Bold
<4>	Entity Header Description	Font	The font used to display the entity description beneath it's name in the column header	8 pt. Tahoma
<5>	Multi-Day Date Headers	Font	The font used to display the dates in the time bars of multi-day views	16 pt. Tahoma

## Remarks

The ScheduleFonts property can be used to customize various fonts used in rendering the Schedule control.

## Example

```
// Change the entity description font to italics
Fonts = ""
Fonts<4> = @SVM:@SVM:@SVM:1
Set_Property(@Window:".OLE_SCHEDULE", "OLE.ScheduleFonts", Fonts)
```
