

SelectBorderColor

The border color of selected appointments.

Usage

```
Set_Property(OLECtrlEntID, "OLE.SelectBorderColor", Color)
```

Values

Color can be any [Color](#) value.

Default: "Select" System Color

Remarks

The SelectBorderColor is the color used to render the borders of the selected appointment. This thick border should be set to a color that helps the appointment stand out. If you do not want this border to appear, you may set this property to "None".

Example

```
// Set the border to bright yellow
Set_Property(@Window:".OLE_SCHEDULE", "OLE.SelectBorderColor", "RGB{255, 255, 0}" )

// Turn off the select border
Set_Property(@Window:".OLE_SCHEDULE", "OLE.SelectBorderColor", "None" )
```
