

RemoveTimeBlocks

Removes one or more time blocks from the control.

Syntax

```
rv = Send_Message(Ctrl, "OLE.RemoveTimeBlocks", TimeBlocks)
```

Parameters

| Parameter | Description |
|------------|----------------------------------|
| TimeBlocks | List of time blocks to be added. |

Remarks

The RemoveTimeBlocks method removes time blocks from the control. To use this method, simply pass an @FM delimited array of time block keys.

Example

```
// Remove a time block  
Send_Message(@Window:".OLE_SCHEDULE", "OLE.RemoveTimeBlocks", TimeBlockKey)
```
