

ApptLocked

The locked status of an appointment.

Usage

```
Set_Property(OLECtrlEntID, "OLE.ApptLocked[ID]", Boolean)
```

Values

[True | False]

Default: False

Indices

Index	Description
ID	Unique ID of an existing appointment

Remarks

The ApptLocked property can be used to lock and unlock an appointment. Locked appointments cannot be moved by users. This is useful for multiple user applications that need to prevent data conflicts.

Example

```
// Lock an appointment
Set_Property(@Window:".OLE_SCHEDULE", "OLE.ApptLocked[Appt0001]", Yes$)
```
