

Background

The splitter's background color fill.

Usage

```
Set_Property(OLECtrlEntID, "OLE.Background", ColorFill)
```

Values

ColorFill can be any [Color Fill](#) value.

Remarks

The Background property establishes the background color for the control. Set this property to "None" if you want a truly invisible splitter bar, or customise this property to any valid [Color Fill](#) value for a distinguished look and feel.
