

Font

The font used to render the tabs' captions.

Usage

```
Set_Property(OLECtrlEntID, "OLE.Font", FontArray)
```

Values

The *FontArray* structure uses the same formatting as the OpenInsight FONT property. Visit the [Font](#) common OLE property page for further documentation.

Default: Tahoma, 8 pt.

Remarks

Set this property to change the font used to render captions for all tabs.

Example

```
// Set the font to Arial
Set_Property(@Window:".OLE_TAB", "OLE.Font", "Arial")

// Set the font to italic
Set_Property(@Window:".OLE_TAB", "OLE.Font", @SVM:@SVM:@SVM:1)

// Set the font to bold
Set_Property(@Window:".OLE_TAB", "OLE.Font", @SVM:@SVM:700)
```
