

DefAlignment

Default data alignment for new items.

Usage

```
Set_Property(OLECtrlEntID, "OLE.DefAlignment", Array)
```

Values

Array has the following structure:

Pos	Name	Type	Description	Default
<1>	Horizontal	Option	The default horizontal alignment for new items	Left
<2>	Vertical	Option	The default vertical alignment for new items	Center

Remarks

The DefAlignment property sets the alignment for new items. Setting this property will not change existing items. Instead, newly added items will take on the setting established in this property. See the [ItemAlignment](#) property for details.

For more information on how default properties can make you more efficient, see the [Default Properties](#) article.

Example

```
// Center justify new items
Set_Property(@Window:".OLE_TREE", "OLE.DefAlignment", "Center":@FM:"Center")
```
