DefColors

Default color settings for new items.

Usage

```
Set_Property(OLECtrlEntID, "OLE.DefColors", Array)
```

Values

Array has the following structure:

Pos	Name	Type	Description	Default
<1>	Text Color	Color	The default color of new items' text	WindowText
<2>	Background	Color Fill	The default background of new items	Window

Remarks

The DefColors property establishes the default colors for new items. Setting this property will not change existing items. Instead, newly added items will take on the setting established in this property. See the ItemColors property for details.

For more information on how default properties can make you more efficient, see the Default Properties article.

Example

```
// Make the text white and the background red for new items
Set_Property(@Window:".OLE_TREE", "OLE.DefColors", "White":@FM:"Red")
```
