

DefDraggable

Default draggable setting for new items.

Usage

```
Set_Property(OLECtrlEntID, "OLE.DefDraggable", OptionValue)
```

Values

OptionValue can be set to one of the following valid options:

Value	Abbr.	Description
Default	D	Use the DragCondition property to decide
Always	A	The new item can be dragged
Never	N	The new item cannot be dragged

Default: Default

Remarks

The DefDraggable property establishes the default draggable setting for new items. Setting this property will not change existing items. Instead, newly added items will take on the setting established in this property. See the [ItemDraggable](#) property for details.

For more information on how default properties can make you more efficient, see the [Default Properties](#) article.

Example

```
// Make all new items draggable
Set_Property(@Window:".OLE_TREE", "OLE.DefDraggable", "Always")
```
