

# SRP\_Get\_SystemTime

Gets the system date and time in the GMT time zone.

## Syntax

```
UtcTime = SRP_Get_SystemTime()
```

## Returns

The current date and time in the GMT time zone in OI internal format.

## Remarks

The SRP\_Get\_SystemTime method gets the system time in the GMT timezone for those times you want to avoid local time zone dependencies.

## Examples

```
// Get the time in UTC time zone and OConv it for readability
UtcTime = SRP_Get_SystemTime()
UtcTime = OConv(UtcTime, "DT")
```
