

SRP_DateTime Date

A datetime's date.

```
Date = SRP_DateTime("Date", Datetime)
```

Returns

An OI date.

Parameters

Parameter	Description
Datetime	A datetime in OI's internal format. (REQUIRED)

Remarks

The "Date" service extracts just the date portion and returns it in OI's internal date format. If *Datetime* is not valid, "" is returned.

Examples

```
// Get just the date from the current datetime  
Date = SRP_DateTime("Date", DateTime())
```
