

SRP_Time IsDaylightSavings

Determines if the local time is in daylight savings time.

```
Bias = SRP_Time("IsDaylightSavings")
```

Returns

1 if the local time is in daylight savings time. 0 if not.

Remarks

The "IsDaylightSavings" returns 1 if the system's local time is set to daylight savings time. If not, this service returns 0.

Examples

```
// Are we in daylight savings time?  
IsIt = SRP_Time("IsDaylightSavings")
```
