SRP_Time AddHours

Adds hours to a time.

```
Time = SRP_Time("AddHours", Time, Hours)
```

Returns

A new time.

Parameters

Parameter	Description
Time	A time in OI internal format. **(REQUIRED)**
Hours	The number of hours to add. **(REQUIRED)**

Remarks

The "AddHours" service calculates a new time by adding the given number of hours to an existing time. You can pass positive or negative whole numbers.

Examples

```
// Add 10 hours the current time
NewTime = SRP_Time("AddHours", Time(), 10)

// Subtract 10 hours from the current time
NewTime = SRP_Time("AddHours", Time(), -10)
```
