

SRP_DateTime AddMinutes

Adds minutes to a datetime.

```
DateTime = SRP_DateTime("AddMinutes", Datetime, Minutes)
```

Returns

A new datetime.

Parameters

Parameter	Description
Datetime	A datetime in OI internal format. (REQUIRED)
Minutes	The number of minutes to add. (REQUIRED)

Remarks

The "AddMinutes" service calculates a new datetime by adding the given number of minutes to an existing datetime. You can pass whole numbers or decimal numbers. You can also pass negative values to subtract minutes.

Examples

```
// Add 10 minutes the current datetime
NewDateTime = SRP_DateTime("AddMinutes", DateTime(), 10)

// Add a minute and a half to the current datetime
NewDateTime = SRP_DateTime("AddMinutes", DateTime(), 1.5)

// Subtract 10 minutes from the current datetime
NewDateTime = SRP_DateTime("AddMinutes", DateTime(), -10)
```
