System	A theme based on the current system theme settings.
Windows10	A theme based on the white Windows 10 theme.

Indices

Index	Description
CtrlId	Identifies a subclassed MDICLIENT control

Remarks

Applies To: MDICLIENT

The MdiTheme property applies a theme to the MDICLIENT control and all its child windows.

Important: This property does nothing if you have a Ribbon control on the form. The Ribbon [theme](#) will automatically be applied to the subclassed MDICLIENT.

Example

```
// Subclass my MDICLIENT control and theme it
CtrlId = @Window:".MDICLIENT"
Handle = Get_Property(CtrlId, "HANDLE")
Send_Message(@Window:".OLE_SUBCLASS", "OLE.Subclass", Handle, CtrlId)
Convert "." to ";" in CtrlId
Set_Property(@Window:".OLE_SUBCLASS", "OLE.MdiTheme[":CtrlId:"]", "Windows10")
```
