

Version

The control's version info.

Usage

```
Set_Property(OLECtrlEntID, "OLE.Version", Array)
```

Values

Array has the following structure:

Pos	Name	Type	Description
<1>	Version Number	Decimal	The control's version number
<2>	Last Build	Text	The data and time of the control's last build

Remarks

This read only property exists in all SRP OLE controls to provide an easy way to determine which version of the control is in use.

Example

```
// Get the control's version  
Version = Get_Property(@Window:".OLE_CONTROL", "OLE.Version")
```
