\* Provided per user request

100	Description
B101	Sort mode selected is not correct. Column %1% already has relational index with %2% mode. Please apply this mode for creating c
B102	%1% already has a relational index established from table %2%. The Relational index cannot be set again from table %3%.
B103	Compressing %1%...
B104	%1% has been selected, but cannot be found in %2%.
B105	The dBASEIII file %1% already exists. Do you want to overwrite it?
B106	The dBASEIII memo file %1% already exists. Do you want to overwrite it?
B107	Cannot find the %1% command in the LIST.SUB subroutines.
B108	Enter number.
B109	Enter text without quotes.
B110	Port Call:
B111	An invalid option was used in the "PORT" command.
B112	The code %2% is not valid in "%1%".
B113	The %1% option is not currently implemented.
B114	Not available.
B115	The column must not be a symbolic, group, or key column, or have a relational index on it.
B116	You must first select a column.
B117	Enter a table name followed by a slash (/) and a column name.
B118	Warning! All index information will be deleted from %1%. Do you want to continue?
B119	Clearing indexing information in %1%...
B120	Deleting Cross Reference information from %1%...
B121	The character column %1% is longer than the 254 character limit. Use a memo field for this column.
B123	Finding indexed tables...
B124	Collecting indexing information...
B125	Enter a new table name for the save list statement. Press [Esc] to cancel the process.
B126	%1% is a new row.
B127	%1% is an invalid row.
B128	Hours cannot exceed 12.
B129	Text cut into buffer %1%.
B130	"%1%" was not found.
B131	The default macro set %1% cannot be found.
B132	The header for group 1 has been corrupted. No framesize or modulo information can be read. Do you want to fix group 1?
B133	Cannot determine the framesize of this table. Please enter your best estimate for the framesize in bytes.
B134	Framesize must divide evenly into the filesize (%1%).
B135	The FRAMESIZE must be between 256 and 10000.
B136	The FRAMESIZE parameter must be numeric.
B137	Enter a group or group range to fix. Formats are: x, x-y, ALL. Press [Esc] to cancel the process.

B138	Response = %1%
B139	Fixing groups %1% through %2%...
B140	Rebuilding the primary % figure...
B141	Copying all good rows found from a temporary table back into re-initialized groups...
B142	Another station is fixing. Please try again later.
B143	The overflow freelist has been cleared. You can issue a compress to recover and re-order the overflow frames.
B144	Compress file. There must be no other user of this file. After compression, this file should be re-attached at all other s
B145	An error occurred during the compress operation. The operation has been canceled.
B146	The drive %1% does not contain Advanced Revelation files.
B147	The program OCONV.RUN is not available in the SYSOBJ table.
B148	Enter the names of the programs to display.
B149	The %1% table was not found. Do you want to list all indexed tables?
B150	The %1% table is not indexed. Do you want to list all indexed tables?
B151	You have defined an index. Do you want to turn it on?
B152	*CAUTION* You have asked to delete rows from SYSCOLUMNS. These rows will also be deleted from your dictionaries. Do you want to c
B153	The %1% column in the %2% table is not available. Do you want to list all indexed columns?
B154	Will "%1%" be a key prompt?
B155	Finding the %1% column in the dictionary...
B156	%1% cannot be found. It must exist in %2%.
B157	%1% is currently a Data Column at position %3% Do you want to convert it to a Symbolic column?
B158	No formula has been saved.
B159	The formula was not changed.
B160	Collector windows do not use dictionary formulas.
B161	The object code for %2% cannot be found in the %1% table. %2% is also not cataloged. Please enter the name of the table containin
B162	The window %1% cannot be found.
B163	Updating the dictionary...
B164	%1% did not bind correctly.
B165	No index values were found.
B166	Cannot find the row %1% in the %2% table.
B167	Collecting information about indexes...
B168	Key capture functions have been disabled.
B169	This is an invalid key.
B170	Macro execution has been disabled.
B171	Window %1% is about to be deleted from %2%. Do you want to continue?
B172	Deleting...
B173	No columns are indexed in %1%.
B174	Sorting is not allowed within a protected group.
B175	Sorting is not allowed before row %1%.
B176	Enter the number of rows to select or leave this blank to select all rows.
B177	Enter heading text for this column.
B178	Enter an output format code. (example: "D2/" for a date format of mm/dd/yy)

B179	Enter a heading.
B180	Enter a footing.
B181	QBEC1, HORMV.OUT sync error?
B182	QBEC1, HORMV.SCB out of sync?
B184	Building query...
B185	Updating %1% in the %2% table...
B186	No key prompt was specified. The default key prompt will be %1%.
B187	You must create at least one prompt before you can save this window. The save operation has been canceled.
B188	The window %1% was not locked. No changes will be saved.
B189	Join prompt %1% cannot be found.
B190	Do you want to execute the filter?
B191	%1%, needed for index transactions is not available. Indexes depending on this table will probably need rebuilding.
B192	The Lotus file %1% already exists. Do you want to overwrite it?
B193	Enter a variable name.
B194	Editing must be complete to continue.
B195	There is nothing to pan.
B196	This label is as large as you can make it in the current window.
B197	You have reached the edge of window space. You may want to try resizing your window using [Ctrl-F7].
B198	The dictionary of %1% is in use. No changes will be saved.
B199	The dictionary is in use elsewhere. The binding cannot be changed.
<b>200</b>	<b>Description</b>
B200	You have maximized this prompt entry in the current window. You may want to try resizing your window using [Ctrl-F7].
B201	Reading window...
B202	%1% has %2% installed. Do you want to remove %2%?
B203	Removing the %1% modifying filing system from %2%...
B204	Waiting until the source record %1% can be locked...
B205	%1% is locked.
B206	No R/LIST program was generated. An invalid expression or column has been detected in line %1%.
B207	%1% is not a valid dBASEIII file.
B208	Do you want to perform the conversion?
B209	That is an invalid color name.
B210	If no record delimiter is specified, a record length must be specified.
B211	The operating system file %1% already exists. Do you want to overwrite it?
B212	The HELP file is not available. No help message will be saved. Do you want to continue?
B213	Done.
B214	There are no columns defined in the dictionary of %1%.
B215	You must add a table to the window before you can use Quick Paint.
B216	There are no tables in this window.
B217	Formatting...
B218	Printing...

B220	The mode %1% is invalid.
B221	The selected objects have been copied to the Paint clipboard.
B222	Function key? %1%
B223	You must be in Roam mode to Insert or Delete rows.
B224	The record already exists in the VOC. Do you want to overwrite it?
B225	Resizing is not supported in Table mode.
B226	You may not pan while in Table mode.
B227	The Window is fully displayed.
B228	There is no transaction file for this Batch Update.
B229	This label is at maximum length for the current window. You may want to try resizing your window using [Ctrl-F7].
B230	A starting byte and a length are required.
B231	Lock information has been updated in the templates in the %1% file.
B232	No related windows are available.
B233	Macro building has been disabled.
B234	Searching Indexes... Press [Esc] to cancel the search.
B234	Searching Cross References... Press [Esc] to cancel the search.
B235	Waiting for index %1% to be available...
B236	Error in compiling "%1%"
B237	No [F2] Help for %1% type commands is available.
B238	Collector windows do not have dictionaries.
B239	Updating prompt %1%...
B240	Updating the %1% field...
B241	%1% is invalid.
B242	Enter the table name to move to.
B243	Selecting referenced programs...
B244	%1% is not a valid table type. Press [F2] for table type options.
B245	The %1% key is not active %2% Press [Ctrl-F9] for a list of the currently active keys.
B246	The clipboard has been cleared.
B247	Pasting is only allowed while Roaming.
B248	Reading dictionary...
B249	The dictionary is not bound to %1%. Use the Prompt Window to verify the prompt.
B250	Table Information for %1%: Volume = %2% OS Path = %3% File Type = %4% File Number = %5%
B251	The %1% table belongs to the %2% volume. You may only change indexing in tables under the same volume.
B252	Do you want to save?
B253	Shifting...
B254	No block of text has been defined.
B255	The menu options key is disabled.
B256	An invalid attribute was passed to ATTR.TO.ESC. Attribute = "%1%" (hex).
B257	Cannot access color definitions correctly.
B258	The escape sequence "%1%" (hex) is invalid in ESC.TO.ATTR.
B259	The %1% table belongs to the %2% application. You may only change indexing in tables in the same application.

B260	%1% is not a valid volume name or an existing subdirectory.
B261	Table name = %1%   OS name   = %8%   Volume   = %2%   Application = %3%   File Type   = %4%                    %5%
B262	%1% is indexed and cannot be renamed.
B263	%1% in the %2% table is not a valid dictionary type for indexing. Only the dictionary types "F" and "S" may be indexed.
B264	%1% already exists in the %3% application on the %2% volume.
B265	The clipboard is empty.
B266	%1% is not a Linear Hash table. You must convert your table before attempting to use it with PAINT.
B267	The maximum length of the Quickdex index (65,530 characters) has been reached -- no more records will be added to the Quickdex in
B268	The "BY" clause is invalid. You cannot sort by %1%.
