SRP_Stack Count

Gets the number of elements in an SRP Stack.

Syntax

```
Count = SRP_Stack("Count", Handle)
```

Returns

The number of elements in the stack

Parameters

Parameter	Description
Handle	Handle to an existing SRP Stack **(REQUIRED)**

Remarks

The Count service gets the size of the stack.

Examples

```
// Create an empty stack
Handle = SRP_Stack("Create")

// Push an element
SRP_Stack("Push", Handle, "SRP")
SRP_Stack("Push", Handle, "Computer")
SRP_Stack("Push", Handle, "Solutions")

// If we get the count, it will be 3
Count = SRP_Stack("Count", Handle)

// Play nice with memory
SRP_Stack("Release", Handle)
```
