

# Overview

## Demo

You can run the **SRP\_MAIL\_DEMO** window to familiarize yourself with the SRP Mail Utility features. Use the window send a sample email in a variety of formats to any destination. Source code for the window is included in the SRP\_MAIL\_DEMO\_EVENTS stored procedure. Feel free to view this function to see how the utility is used.

## Sending Mail

The beauty of the SRP Mail Utility lies in its simplicity. A single function call does it all. See the [SRP\\_Send-Mail](#) reference for details on the available configuration options and usage.
