ItemSwatchPosition

An item's swatch position.

Usage

```
Set_Property(OLECtrlEntID, "OLE.ItemSwatchPosition[key]", OptionValue)
```

Values

OptionValue can be set to one of the following valid options:

Value	Abbr.	Description
Left	L	Show the swatch to the left of the text
Right	R	Show the swatch to the right of the text

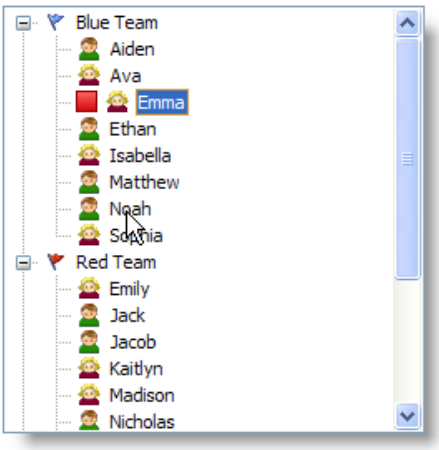
Default: Left

Indices

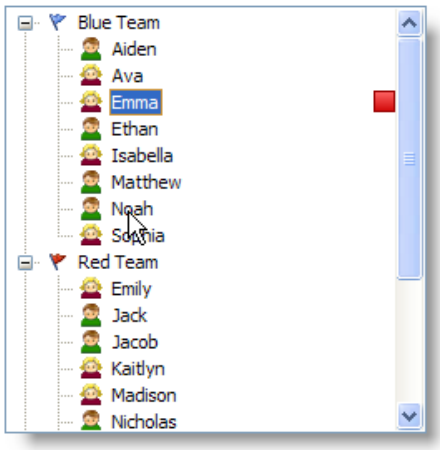
Index	Description
key	An item's unique key

Remarks

The ItemSwatchPosition property establishes whether an item's swatch appears to the left of the text or the right. A swatch is a patch of color that can be used to associate an item to a color. By default, this property is set to "Left", but you can set it to "Right."



Left Swatch



Right Swatch

TIP: Use the DefSwatchPosition property to set the default check box setting for new items.

Example

```
// Make the swatches appear to the right of all items
Set_Property(@Window:".OLE_TREE", "OLE.ItemSwatchPosition[All]", "Right")
```
