

SystemButtonCaption

The system button's caption which is only visible when the system button is a tab.

Usage

```
Set_Property(OLECtrlEntID, "OLE.SystemButtonCaption", Text)
```

Values

Text can contain anything.

Default: "File"

Remarks

The SystemButtonCaption property gets or sets the text of the application tab. The application tab is only visible when the [SystemButtonsTab](#) is set to True. By default, the application tab will display the text "File", since the application button/tab is a replacement to the File menu of old.

If you want to change the text, simply set this property to the desired text.

Example

```
// Change the application button into a tab and set it's text to "App"
Set_Property(@Window:".OLE_RIBBON", "OLE.SystemButtonIsTab", 1)
Set_Property(@Window:".OLE_RIBBON", "OLE.SystemButtonCaption", "App")
```
