

By and By-DSND

Description

Sorts data within a Run_Report report.

Syntax

By COLUMN

- OR -

By-DSND COLUMN

Remarks

By arranges the list or report according to the order of the contents of a column.

To create a list or report sorted in descending (reverse) order, use the keyword **By-DSND**.

Example

```
* List Customer by State in State order
.
stmt = 'LIST CUSTOMERS CUSTOMER_NAME STATE BY STATE'
Run_Report( "", stmt)

* List Customer by State in State descendig order.

stmt = 'LIST CUSTOMERS CUSTOMER_NAME STATE BY-DSND STATE'
Run_Report( "", stmt)
```
