

Print_Init Function

Description

Starts a printing session.

Syntax

status = **Print_Init**(*mode*, *jobtitle*, *handle*)

Parameters

The Print_Init function has the following parameters:

Parameter	Description	
<i>mode</i>	Value	Description
	0	Default printer.
	1	Displays the Print dialog box and lets you choose the printer.
<i>jobtitle</i>	The print job title to appear in Print Manager.	
<i>handle</i>	Handle of the owner window.	

Returns

True for successful execution or **False** for failure.
