

RTI_TASK_SHUTDOWN

Description

RTI_TASK_SHUTDOWN stops the polling service that processes background tasks.

It is a member of the RTI_TASK_xxx programs.

Syntax

call RTI_TASK_SHUTDOWN()

Parameters

None

Returns

Notes: Use *RTI_TASK_SHUTDOWN* to terminate the background processing manager and any associated queues launched explicitly by the *RTI_TASK_STARTUP* command, or implicitly by the *RTI_TASK_SUBMIT* command.
