Run_Label Subroutine

Description

Runs Report Builder+ labels.

Syntax

Run_Label (LabelName,Select_Statement,Select_Option,Print_Option)

Parameters

The Run_Label subroutine has the following parameters.

Parameter	Description
LabelName	The label name. Use the entity name of the fully-qualified entity id.
Select_Statement	Selection criteria to use for label creation.
Select_Option	<table><tr><th>Value</th><th>Description</th></tr><tr><td>0</td><td>The Preselect option. This option will run the embedded select statement in the saved label entity and then run the passed select statement.</td></tr><tr><td>1</td><td>The Override option. This option will run the passed select statement only.</td></tr></table>
Print_Option	<table><tr><th>Value</th><th>Description</th></tr><tr><td>0</td><td>Default. When the print option is set to 0 the labels will display in the print preview window.</td></tr><tr><td>1</td><td>This value will bypass the preview screen and print directly to the printer.</td></tr></table>

Note:The Run_Label function is to be used with existing Report Builder Label records only.

Example

```
* The fully qualified entity id is EXAMPLES*OIREPORT*RBLABEL*CUSTOMER_ADDRESS
Declare Subroutine Run_Label
* Run the Existing Label Report
LabelName = 'CUSTOMER_ADDRESS'
Run_Label(LabelName,'','')
* Run the Existing Label Report
select_statement = "SELECT CUSTOMERS WITH STATE = 'NJ'"
Run_Label(LabelName,Select_Statement,1)
```
