

Set_Bgnd_IX_Time Function

Description

Sets the number of seconds the engine waits before and between indexing. This function is used with [Set_IDXSvr\(\)](#) to control dedicated indexing.

Syntax

Set_Bgnd_IX_Time (*Seconds*)

See also

[Set_IDXSvr\(\)](#)

Remarks

```
subroutine TurnOnIndexer(void)
declare subroutine Set_Bgnd_IX_Time, Set_IDXSvr
* update indexes every 10 seconds
Set_Bgnd_IX_Time(10)
* turn on dedicated indexing
Set_IDXSvr(1)
return
```
