

# Screen Shots

Control Type	Description
SRP Button	This form created by Don Muskopf of Raining Solutions, LLC
SRP Tab	wonderfully demonstrates the flexibility of several SRP ActiveX controls. The primary component is the SRP EditTable which has been imaginatively adapted to work like a calendar control. This is achieved through creative use of hiding the <b>CellGridLines</b> property and applying our powerful <b>Color Fill</b> technology for maximum impact.
SRP EditTable	
SRP DatePicker	
SRP Picture	
SRP Splitter	

The screenshot displays a custom calendar control with a grid-based interface. The months shown are June, July, August, September, October, and November 2012. Each cell in the grid contains a tooltip with specific tasks. For example, in June, the 1st cell shows '90G: Test Temperature EX: Dose Calcium EX: Medicate corals'. The calendar includes navigation buttons for 'Today', 'Month', and 'Multiweek' modes, along with print and help options.
