

ACCEPTDROPPFILES

Applies to

Window, Pushbutton, Edit line, Edit Box, ComboBox, ListBox, Edit table.

Description

A boolean property that lets the operating system know if a user can drag files from the Operating System shell to the OpenInsight form or control. When True, the DROPFILES event is raised when a file is dropped onto the control.

Usage

canDrop = Get_Property(objectname, "ACCEPTDROPPFILES") couldDrop = Set_Property(objectname, "ACCEPTDROPPFILES", bValue)

Remarks

Values passed in Set_Property():

Value	Description
bValue	Boolean true (1) or false (0)

Returns

Values returned by Get_Property and Set_Property

Value	Description
canDrop	The Boolean status of the control's ability to accept a DROPFILES event.
couldDrop	The Boolean status of the control's ability to accept a DROPFILES event, when Set_Property was run.

Example

```
Declare function Get_Property, Set_Property
/* retrieve the ACCEPTDROPPFILES property of an editline control and if true set to false and vice versa. */
equ TRUE$ to 1
equ FALSE$ to 0
fileControl = @window : ".EDT_FILES"
canDrop = Get_Property(fileControl, "ACCEPTDROPPFILES")
if canDrop then
    shouldDrop = false$
end else
    shouldDrop = true$
end
couldDrop = Set_Property(fileControl, "ACCEPTDROPPFILES", shouldDrop)
```
