

ARRANGEICONS

Applies to

Window.

Description

When set to true, indicates that minimized MDI child windows (for MDI frame) or icon (for window) will automatically be kept arranged.

Usage

status = **Set_Property** (*windowID*, "ARRANGEICONS" , *truefalse*)

status = **Get_Property** (*windowID*, "ARRANGEICONS")

Remarks

Values returned by both Set_Property and Get_Property:

Value	Description
<i>true</i>	Arranged.
<i>false</i>	Not arranged.
