DEVMODE

Applies to

SYSTEM.

Description

Returns the value of the DV switch used to launch OpenInsight.

Usage

sn = **Get_Property** ("**SYSTEM**", "**DEVMODE**")

Returns

True if OpenInsight was launched with the DV switch.

False if not launch with a DV switch.

Example

```
If starting OpenInsight from a desktop shortcut with a target of:
C:\Revsoft\OINSIGHT\OINSIGHT.exe /dv=1
When the following command is executed:
devmode = Get_Property("SYSTEM","DEVMODE")
then
The devmode variable will contain 1.
