

# DRAGSOURCE

## Applies to

SYSTEM Object

## Description

Contains the name of the OpenInsign control that is the "drag source" during a drag operation. For use with Get\_Property only.

## Usage

*dragSource* = **Get\_Property** ("SYSTEM","DRAGSOURCE")

## Returns

The fully qualified control name.

## Example

```
Declare function Get_Property

* retrieve the DROPTARGET control and display the name in a message
dragSource = Get_Property("SYSTEM","DRAGSOURCE")

if dragSource = @window:".EDITLINE_1" then
    msg(@window,"The Drag Source control is " : dragSource)
end
```
