

ENABLEDROEXPAND

Applies to

Hierarchical List Box controls.

Description

A boolean property to allow the control to respond to mouse hover notifications and expanding a node automatically.

The control needs to have the ENABLEDROP property set to true to enable this property.

Usage

dropExpand = **Get_Property** (*objectname*, "ENABLEDROEXPAND")

dropExpand = **Set_Property** (*objectname*, "ENABLEDROEXPAND", *bValue*)

Remarks

Values passed in Set_Property():

Value	Description
bValue	Boolean true (1) or false (0)

Returns

Values returned by Get_Property and Set_Property

Value	Description
state	the Boolean status of the control's drop expand ability.
existingState	the Boolean status of the control's drop expand ability, when Set_Property was run.

Example

```
Declare function Get_Property, Set_Property
* retrieve the ENABLEDROEXPAND property of the LIST_1 control and if true set to false and vice versa.
lstCtrl = @window:".LIST_1"
dExpand = Get_Property(lstCtrl, 'ENABLEDROEXPAND')

if dExpand then newExpand = 0 else newExpand = 1
dExpand = Set_Property(lstCtrl, 'ENABLEDROEXPAND', newExpand)
```
