ENABLEDROPLIST

Applies to

Combo Box controls.

Description

A boolean property to allow **simple combo box** drop target controls to register their list component as a drop target.

The control needs to have the ENABLEDROP property set to true to enable this property.

Usage

dropList = **Get_Property** (*objectname*,"**ENABLEDROPLIST**")

dropList = **Set_Property** (*objectname*,"**ENABLEDROPLIST**", *bValue*)

Remarks

Values passed in Set_Property():

Value	Description
bValue	Boolean true (1) or false (0)

Returns

Values returned by Get_Property and Set_Property

Value	Description
state	the Boolean status of the control's drop list ability.
existingState	the Boolean status of the control's drop list ability, when Set_Property was run.

Example

```
Declare function Get_Property, Set_Property

* retrieve the ENABLEDROPLIST property of the LIST_1 control and if true set to false and vice versa.

lstCtrl = @window:".LIST_1"

dList = Get_Property(lstCtrl,'ENABLEDROPLIST')
if dList then newList = 0 else newList = 1
dList = Set_Property(lstCtrl,'ENABLEDROPLIST',newList)
```
