ORIG XXX

Applies to

All controls.

Description

You can use the ORIG_XXX properties to reset control properties to their original values.

Usage

origvalue = **Get_Property** (*objectname*, **"ORIG_ xxx"**)

where xxx is replaced by one of the values in the table below.

Remarks

The following properties address the specified control attributes.

Property	Description
ORIG_X	Leftmost coordinate, where applicable.
ORIG_Y	Upper left coordinate, where applicable.
ORIG_WIDE	Width of control, where applicable.
ORIG_HIGH	Height of control, where applicable.
ORIG_TEXT	Any text property.
ORIG_ENABLE	True, if enabled; false, if disabled.
ORIG_VISIBLE	True, if visible; false, if not visible.
ORIG_BACKCOLOR	Background color.
ORIG_FORECOLOR	Foreground (including typeface) color.
ORIG_FONT	Font properties (refer to the FONT property).
ORIG_LIST	Value of the list in a combo box, edit table, or list box control (@FM-delimited).
ORIG_VALUE	Value associated with a specific radio button.
ORIG_LABEL	Column heading values, @SVM-delimited.
ORIG_ROWVALUE	The record read in the READ event.
