

SERVERNAME

Applies to

SYSTEM.

Description

Returns the OpenEngine ServerName used by OpenInsight.

Usage

```
sn = Get_Property ("SYSTEM", "SERVERNAME")
```

Returns

The literal value of the OpenEngine servername as defined in the command line parameter "SN".

Example

```
If starting OpenInsight from a desktop shortcut with a target of:  
C:\Revsoft\OINSIGHT\OINSIGHT.exe /sn=this  
When the following command is executed:  
sn = Get_Property("SYSTEM", "SERVERNAME")  
then  
The sn variable will contain the literal "this".
```
