

EXPAND

Description

Expands or collapses a hierarchical list box to the specified level.

Syntax

```
listitem = Send_Message(controlID, "EXPAND", position, level)
```

Parameters

For **EXPAND**, the Send_Message function has the following parameters.

Parameters	Description						
Position	Position can have one of the following values: <table><tr><th>Value</th><th>Description</th></tr><tr><td>0</td><td>Expand applied to entire list box.</td></tr><tr><td>> 0</td><td>Position of item in list box.</td></tr></table>	Value	Description	0	Expand applied to entire list box.	> 0	Position of item in list box.
Value	Description						
0	Expand applied to entire list box.						
> 0	Position of item in list box.						
Level	If position is greater than 0, level is relative to the item at the specified position. If position is 0, level is absolute.
