

ADD

Adds two values.

Syntax

```
Result = SRP_Math("ADD", Value1, Value2, DecimalPlaces, ScientificNotation)
```

Returns

The sum of *Value1* and *Value2*.

Remarks

The ADD operation returns the sum of *Value1* and *Value2*.

Example

```
// Add PI to E
Val1 = "3.1415926535897932384626433832795"
Val2 = "2.7182818284590452353602874713527"
Result = SRP_Math("ADD", Val1, Val2)
!! Result = 5.8598744820488384738229308546322 !!
```

```
// Perform the same addition, but round to 4 decimal places
Result = SRP_Math("ADD", Val1, Val2, 4)
!! Result = 5.8599 !!
```
